

Built in Sweden

No. 1 – SE

# Scrambler

Holding true to the original 1960's style, it's built to swiftly, safely and silently steer you through whatever the world throws at you. In the RGNT No.1 Scrambler SEL form and function play a tie-game. Customize to your unique design.

RGNT

# No.1 Scrambler SE

Holding true to the original 1960's style, it's built to swiftly, safely and silently steer you through whatever the world throws at you. In our Scrambler form and function play a tie-game. The winner is the rider, enjoying forward-looking style, design and tech in a first-in-class package. Customize to your unique design.

Top Speed  
120 km/h

Range  
148 km

Peak Power  
21 kW

Battery  
9,5 kWh

Charge 20-80%  
3 h

01. HANDCRAFTED IN SWEDEN

Timeless design.

In a world of trends, we choose to be timeless. Paying homage to iconic bike designs of the past, we set the stage for a family of premium, high-tech motorcycles that combine timeless elegance with engineering excellence. The look is yesterday's, the experience is tomorrow's.

02. TIMELESS AND CLASSIC

Future-facing tech.

Our bikes offer a full suite of technological innovations and connectivity solutions that enhance not only your ownership experience, but also your safety on and off the bike. From tactile feedback to 24/7 IoT-connectivity for security, bike status and automatic software and design upgrades; our tech has got you covered.

03. ADVANCED TECHNOLOGY

More torque, more speed, more range.

We prefer to lead, not to follow. As the electric charging infrastructure is reaching maturity and every wall has three 220 V outlets, we believe the fastest (and furthest) way forward is smaller batteries. Less weight means more torque, more speed and more range.

04. INNOVATION

Hassle-free ownership.

We understand that you want your bike to add something to your daily life, not bite a chunk out of it. That's why every decision in our design and engineering process is aimed at providing you with ease of mind. From our (very) low maintenance hub motor to our data driven connectivity and update ecosystem; we just want you to sit back and enjoy the ride.

NO.1 SCRAMBLER SPORT EXTENDED

## Tank options.

The available color palette for the Scrambler SE tanks are updated with Black Glossy Stripe, Black Matte Stripe or White Yellow Stripe. Following the RGNT design philosophy, the tanks are shaped out of sheet metal for durability and style. The Scrambler SE is now available with polished sides or with tank pads.

## Handcrafted Seats.

The RGNT styling team understands that Motorcycle seats add a natural, emotional touch to every beautiful bike. Therefore, they collaborated with one of Sweden's oldest leather suppliers, Tärnsjö (founded 1873) to create premium, vegetable tanned leather seats. Choose from Black Ribbed Vinyl or Black Tärnsjö Leather.

# General specs & add-ons

### TOP SPEED

120 km/h

### RANGE

148 km

### PEAK POWER

21 kW

### BATTERY

*Founded in 2019 in Sweden, we aim high. Wildly ambitious, yet underpinned by a strong vision and in-depth knowhow, we plan to silence boulevards, backroads and beaches globally by quickly expanding in a fast-growing bike-tech market. In shaping our electric future, we honor the great design achievements of the past. Our passion for iconic motorcycle design drives us to put high-end, timeless quality left, right and center in all our designs. Simply look at our bikes to see what we mean.*

*Bound to disrupt the motorcycle realm, our designs are high-quality, timeless and packed with game changing innovation. Our quickly expanding family of motorcycles currently consists of the Classic and the Scrambler.*

# Full specs

## GENERAL

Total Weight: 163,3 kg  
Weight Battery: 60 kg (unmountable)  
Frame: Swedish quality Steel Frame, welded and powder coated  
License requirements, EU: A1  
Vehicle class: L3e-A1

## CHARGING

Battery cells: Li-On  
Energy in battery: 9,5 kWh  
Type 2 Charging Stations and standard 110/220V wall outlets.  
Charging time 20 - 80%: 3h  
Charging time 0-100%: 6h

## WHEELS

FRONT  
Hub: Aluminum  
Rim: 18\*2.5" Excel, Black Painted Aluminum  
Tire: Avon Trailrider 110/80R18"  
REAR  
Hub: Aluminum  
Rim: 17\*3.0" Excel, Black Painted Aluminum  
Tire: Avon Trailrider 130/80R17"

## LIGHTS

Front: Light and indicators in LED  
Rear: Classic rear light

## DASHBOARD

7" LCD touch display  
Cloud connectivity  
4G  
GPS

## MEASUREMENTS

Length: 2100 mm  
Width: 840 mm  
Height: 1080 mm (without mirrors)  
Wheelbase: 1410 mm  
Seat Height: 810 mm

## DRIVE-TRAIN

Peak Power: 21 kW  
Continuous Power: 9 kW  
Type: Hub motor, rear  
Peak Torque: 390 Nm

## SUSPENSION

Rear: 340 mm eye to eye, adjustable spring preload  
Front: 35 mm Paioli, Ceriani replica, 120mm travel

## BRAKES

Hand levers for both front and rear brake  
FRONT  
J.Juan CBS Brake System (Combined Brake System) Disc: 300 mm diameter floating Disc, 4.5 mm thickness stainless steel  
Brake pads: Sinterd  
REAR  
J.Juan CBS Brake System (Combined Brake System) Disc: 220 mm disc 4 mm thickness stainless steel  
Brake pads: Sinterd

# Make a statement without making a sound

The future of mobility is not what it used to be. It's more exciting than ever, and we invite you to be part of it.

At RGNT we are leading the way into an electric future.  
Riding on the cutting edge of design, innovation and sustainability, we're showing the world how to move forward.  
Country by country, city by city, rider by rider,  
we convey one simple message.

The future is silent. And it looks damn good.
