Prestige Full Option (Exterior color : Biophilic Blue Pearl)

Aluminum 2D emblem / Full LED headlamps (projection type)

Auto-flush door handles
Transparent rear spoiler

Interior

The ergonomic cabin offers enhanced convenience and a heightened sensory experience focused on passenger satisfaction.

Prestige Full Option (Interior color : Dark Gray / Light Gray two-tone)

* The screen layout/design of the infotainment system may change with the updates.

More on Interior

Button-less slim door

The switches typically found on the door trim have been moved to the center console, allowing you to add customized items as needed.

Bridge-type center console

The bridge-type center console makes it easy to use laptops, tablets, and other devices in the car.

* The smart table in this image may be purchased separately at Hyundai Shop's pavilion.

Dual-color ambient mood lights

Set the lighting to suit your mood with the dual-color ambient mood lights installed in the upper and lower door trims for both the front and back seats. There are six themed color options to choose from to enhance your mood.

 Concentration  Healing Forest  Wonderful Day  Mind Care  Meditation  Creative Moment

More on Dual-color
ambient mood lights

Black Edition

The Black Edition features an exterior design embellished with black's beauty and unique advantages.

Prestige Black Edition Full Option (Exterior color : Nocturne Gray Matte)

Black high-gloss front lower bumper molding, side sill molding

Black Edition

Matte black "H" emblems
20-inch matte black wheels

Black high-gloss rear lower bumper molding

Function

Experience the IONIQ 6's wide range of advanced mobility features.

OTA Software Update

Get the newest version of the software wirelessly by simply turning the car off.

Digital side mirror (camera and OLED monitor)

The digital side mirrors built into the crash pad use cameras and OLED displays to provide a clear view for the driver.

Remote Smart Parking Assist 2

This function lets the driver enter and leave a parking space from outside of the car.

* The screen layout/design of the infotainment system may change with the updates.

More on Function

Interactive pixel lights

The four Interactive Pixel Lights installed in the fabric-style horn cover give you the feeling that you are communicating with the IONIQ 6 and indicate the car's current status (welcome/good-bye, drive mode, EV ready, voice recognition, charging, and others).

* The outdoor V2L is a customized feature.

* To use indoor V2L for the first time, the cover must be unlocked using the smart key.

It can be used while the car is running or in utility mode and also while the outdoor V2L function is being used.

Digital key 2 touch

The vehicle can be locked or unlocked or the ignition turned on via iPhone, Apple Watch, or Android smartphone (such as a Samsung phone).

The digital key can be shared with up to 7 devices.

* Please refer to Hyundai Motor's website for a list of eligible models.

Indoor V2L

The indoor V2L feature (located under the middle 2nd-row seats) enables the unrestricted use of electronic devices inside the vehicle.

Outdoor V2L

Passengers can use a wide selection of electronic devices outside the vehicle as well as inside through the outdoor V2L function. The outdoor V2L function ensures a comfortable experience for passengers during outdoor activities in virtually any environment.

Charging

Experience the IONIQ 6's fast and convenient charging.

More on Charging

Distance per
15-minute charge

301km

Battery charge per
18-minute ultra-fast charge

10%~80%

Range using ultra-fast charger (350kW)
A 15-minute charge will provide a range of 301km, and it takes only 18 minutes to charge the battery from 10% to 80%.
(Long Range 2WD, 18-inch)

Maximum driving
distance for one charging

524km

The use of a large-capacity battery pack (77.4kWh) makes the IONIQ 6 an electric car that can be taken on long-distance drives, in addition to shorter urban trips.
(Long Range 2WD, 18-inch)

Electric charging door

Use the button on the charging door to conveniently open and close it electronically.

Interactive pixel lights (includes charge status display)

The four Interactive Pixel Lights installed in the fabric-style horn cover display the IONIQ 6's charge status.

PnC (Plug and Charge)

Authentication and charging start as soon as the charging cable is connected to the vehicle. Payment is made automatically after charging is complete.
* Only possible when using E-pit infrastructure (app installation required)

* The above battery charging time is an outcome of room temperature tests conducted by Hyundai Motor Company's affiliated research facility. Actual charging time may vary depending on the battery's temperature, charging rate, and degradation and outdoor temperature.

* The above driving range was calculated based on the standard driving mode of the Ministry of Trade, Industry and Energy's certification criteria. It may vary depending on driving conditions, driving style, loaded weight, vehicle's condition, and outdoor temperature.

* A significant drop in the outdoor temperature (i.e. winter) may reduce the battery's performance and, therefore, increase the charging time and/or decrease the driving range.

Driving

Enjoy the driving performance of the IONIQ 6, designed to satisfy drivers' needs.

More on Driving

Max. Power / Max. Torque

239kW / 605Nm

The IONIQ 6's 239kW output makes it fun and dynamic to drive.
(based on total Long Range AWD capacity)

EV Tune-up Technology

You can customize the steering, horsepower, acceleration sensitivity, drive system, and other settings to suit your driving style.

EV Active Sound Design (e-ASD)

The IONIQ 6 offers superior driving pleasure by generating spaceship-like driving sounds.

Mood lights synced to speed

The front seat mood lights get brighter the faster you drive, providing a dynamic driving experience.

Prestige Full Option (Exterior color : Biophilic Blue Pearl)

Hyundai SmartSense

Hyundai SmartSense provides a safe and convenient driving environment through technology that enhances the safety and convenience of both driving and parking.

Forward Collision-avoidance Assist

The sensor alerts you when it detects danger, such as sudden deceleration of the car in front or the presence of stopped cars, pedestrians, or bikes. It will help stop the car if the risk increases after the alert is sounded. It also helps stop the car when it senses a risk of collision with an oncoming car or a car approaching from the left or the right when making a left turn at an intersection. It can also help steer the vehicle to avoid a potential collision with an oncoming car, a car in the next lane when changing lanes, and even pedestrians on the edge of the road ahead.

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.

* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions.

In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while you are using the turn signal to change lanes. If, while attempting a forward exit (from a parallel-parked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Safe Exit Warning

If a vehicle approaching from the back is detected after the car is parked and the passengers are opening doors to get out, a warning is issued.

More on
Hyundai SmartSense

Navigation-based Smart Cruise Control (safety speed zone/curve control/access road)

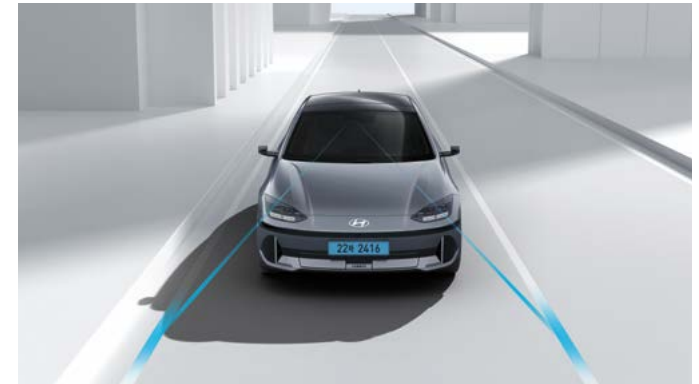

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed. In a curved section of a road, speed is reduced just before entering the curved section. After leaving the curved section, the vehicle is brought back to its designated speed. This system also helps maintain a safe driving speed at the entry or exit point of a highway.

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.

* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions.

In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

Lane Following Assist

This system keeps the car in the center of the lane.

Rear Cross-traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

E-Value + / E-Lite / Exclusive

18-inch alloy wheels
(standard for all trims)

20-inch alloy wheels
※ E-Lite / E-Value + /
Standard Exclusive trims are not included.

Exclusive (Serenity White Pearl)

	Electricity	697 / 111.2	239 / 325	2,055	20	5.2	4.4	4.8	448	385	420

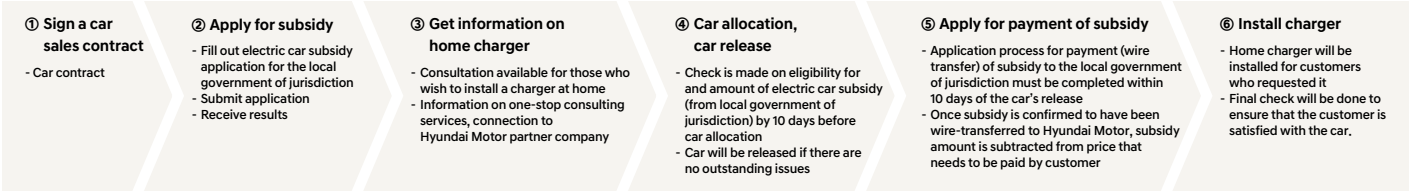

※ The maximum power of an AWD vehicle is based on the combined output of the front and rear wheels

Maintain a constant speed to drive more efficiently.

■ The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. ■ Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. ■ The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. ■ Leather (seats, wrapped parts) is partially mixed with synthetic leather and/or other materials (e.g., fabric). ■ Vehicle colors presented here may differ from actual appearance. ■ Driving range may vary depending on the driver's habits, road conditions, outdoor temperature, and air conditioning settings. ■ A drop in outdoor air temperature (in winter months) may result in a shorter range due to a decrease in battery performance. ■ This EV is heavier than the internal combustion engine model due to its high-capacity battery. Depending on the specifications for Korean automated parking garages, it may not be possible to park the EV. ■ Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. ■ For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For detailed specifications, please refer to the price list for the relevant month.

How to purchase an electric car

IONIQ 6 Warranty information

- **Warranty period for separately-insured electric car parts :** 10 years, 160,000km ※ High voltage battery: 10 years, 200,000km
- **Related parts :** Drive motor, Reducer, High voltage battery, Inverter, ICCU (LDC+OBC), Electric vehicle system control device (VCU)

For when thinking of buying, and maintaining my car!

Hyundai Motors' various services are prepared to assist from start to finish!

Convenient test drive service

Step 1: Make a test drive reservation (website, phone, and car coordinator)

Step 2: Fill out a consent form at the relevant driving center

Step 3: Go on a test drive

Step 4: Receive a purchase consultation (e.g. estimate, and purchase conditions)

Test drive reservation
(website)

New vehicle purchase benefits

- Bluemembers points are accrued at a fixed rate depending on the number of new vehicles purchased

* Eligible types: Passenger, SUV, MPV (STARIA), Light Commercial Vehicle (PORTER), and ST1

※ **Rates for individual members:** 0.7 to 3.0% for individual/small business owners, 0.7% for private taxis, and 0.3% for renting/leasing (non-corporate) (for both first-time and repeat purchasers)

※ **Rate for corporate members:** 0.3% (for both first-time and repeat purchasers)

For rental/lease companies pre-designated by Hyundai Motor: 0.2%

Extra 0.1% in points for long-term drivers applying for Bluemembers membership for the first time

Further information
on point accrual rate

Smart car maintenance

1. Car Life services

- Services that can be applied for via myHyundai app: MyHyundai Car Life, Pickup-and-Charge, EV Safety Care, Lucky Pass H, and charging discounts for EVs

Download
myHyundai

All Care Service
Guide (e-Book)

2. Warranties and services

- Warranty system in which customers can choose scope and/or duration, Bodycare, and Warranty Plus

※ Bodycare (Warranty Plus) is provided free of charge to individual and corporate members who purchase an IONIQ 6.

3. Preventative and inspection services

- To help keep your car in top shape: Blue Basic Inspection, Before Service on Wheels

4. Emergencies and maintenance services

- For an emergency or when receiving your car: SOS emergency response, on-site charging, and Home-to-Home

- For more assurance when using your car: excessive repair fee prevention program, and car support services

Tip Anyone who has a driver's license and is at least 21 years old can apply for a test drive.

The driver is required to carry a presentable license in person to apply for the test drive.

Bluemembers points are accrued with each Hyundai EV credit card use.

Bluemembers partner companies offer diverse mobility and lifestyle/charging benefits. Don't miss out!

※ Holders of (previously issued) Bluemembers partner credit cards will continue to receive both

M points and Bluemembers points.

Before Service on Wheels is available only by individuals who own (or have accumulated in one place) at least 20 Hyundai vehicles.

2025 EV EVerycare

From purchasing to selling, we provide assistance in each phase of the electric car lifecycle to make sure your investment is worthwhile.

When purchasing

Benefit 1. EV purchase benefit (choose one)

One out of the following three services provided

※ Eligibility: Bluemembers customers who have purchased an IONIQ 5, IONIQ 6, or KONA Electric

① Free 800,000 charging credits

- Recommended for those who live in multi-unit housing or use a communal charger

② Free home charger (including installation cost)

- Recommended for those who live in single-unit housing or own a private parking space
(※ Does not include basic facility charge)

③ Two EV-exclusive tires

※ Must apply within two months of the car's release month

Benefit 2. EV warranty extension

Warranty Plus and Body Care services are provided free of charge to ensure that all customers can use their electric cars without maintenance concerns.

※ Eligibility: Individuals or private business owners who have purchased an IONIQ 5, IONIQ 6, or KONA Electric

- Warranty Plus: (Extends parts warranty period by two years (or 40,000km)

- Body Care: (Guarantees repairs/changes related to exterior damage for up to one year (or 20,000km) after the car's release

Benefit 3. Blue Basic Inspection

Provided annually for 10 years from date of release

※ Eligibility: Bluemembers customers who have purchased an EV, including passenger vehicle, SUV, MPV (STARIA), and Light Commercial Vehicle (PORTER Electric)

Benefit 4. Replacement with new vehicle

If a total loss occurs within two year of the car's release, funding is provided for the purchase of a new vehicle

Benefit 5. EV charging solutions

We offer a wide range of charging solutions, including on-site charging and Pick Up & Charge, as well as charging solutions

Benefit 6. EV fire safety program

Up to KRW 10 billion is provided in the event an EV-related fire causes damage to other cars (for 10 years from date of release).

Benefit 7. Residual value guarantee

Need to sell your vehicle? We have it covered! We guarantee the market price of a secondhand EV between two and three years old at up to 55% of the original purchase price

※ Eligibility: Individuals who have purchased an IONIQ 5, IONIQ 6, or KONA Electric

When driving

When selling

※ For further information on benefits, please refer to Hyundai Motor's website or make an inquiry to a branch or dealership.
