

THE NEW ALL-ELECTRIC
MINI COUNTRYMAN.

MINIMALIST & MULTITALENTED.

The new all-electric MINI Countryman combines local emissions-free mobility with maximum environmental compatibility. With more space, more comfort and more safety, what hasn't changed is its robust appearance, the slim lines and the 100 % untamable MINI spirit. This is the SAV that even makes the everyday runaround more exciting. With its robust construction, bold SAV design and imposing presence, the new MINI Countryman radiates self-confidence and thirst for adventure.

MINI TO THE MAX.

Say hello to our most grown-up MINI ever. The new MINI Countryman is 130 mm longer and 80 mm higher than its predecessor model, offering enough space for all imaginable adventures with friends and family.

INNOVATION MEETS SUSTAINABILITY.

The new MINI Countryman is our first model to be produced at the BMW Group Plant Leipzig in Germany. With advanced manufacturing techniques at this green plant, we're taking significant steps to reduce CO₂ emissions during production. By utilizing secondary aluminum and recycled polyester, we're minimizing CO₂ emissions and water usage for every MINI Countryman produced, making your choice of emission-free electromobility even more sustainable.

REFINED TO THE MAX.

Fine craftsmanship and selected details determine the aesthetics of the interior. High-quality materials, advanced technology and atmospheric lighting ensure an emotional driving experience. Once you get into the MINI, you probably won't want to get off.

8 MINI EXPERIENCE MODES.

Reflect your own mood. The MINI Experience Modes open a world of connected and emotion-filled experiences that awaken your senses. Each mode is a specially coordinated interplay of visual design, ambient lighting and immersive sound. With just one command, you can completely transform your cockpit.

OLED, OLED, OLED, OLED.

The pulsating heart and centre of your cockpit is also a world innovation: the round OLED display is the only one of its kind in the automotive industry. With state-of-the-art OLED technology, a diameter of 240 mm and a high-quality glass surface, the display has a distinctive, minimalist look. It serves as an instrument cluster and simultaneously controls the infotainment and assistance systems. A truly unique feature that embodies an iconic piece of MINI history.

GOING NEW WAYS WITH INNOVATIVE MATERIALS.

Using fabrics, MINI establishes a completely new aesthetic. The new material we use for the cockpit and door panels creates a particularly pleasant ambience. The fabric is made from high-quality, recycled materials and is easy to clean. It offers a pleasant tactile experience, more design options and serves as the perfect canvas for the exciting projections in the various MINI Experience Modes.

EXTRA BRIGHT LED HEADLIGHTS.

Three switchable Light-Signatures for Daytime Running Light including Welcome and Goodbye Staging.

GO-KART WITH A MINIMAL FOOTPRINT.

Highly aerodynamic, with the best drag coefficient score ever.

TWO DIFFERENT TRIM OPTIONS.

Classic Trim available for MINI Countryman E.
Favoured Trim available for MINI Countryman SE.

FIT MORE IN.

Boot volume goes up to 1,450 litres
with the rear seat folded down.

HIGHLIGHTS ONLY.

HIGHLIGHTS ONLY.

LESS IS MORE.

With a Head-Up Display, touch screen and intelligent voice assistant, this is our most minimalist interior design ever.

EVEN MORE COMFORT.

A generous proportion of comfort for driver and passengers, with an extra 20.5 – 30 mm shoulder width for all seats.

ALWAYS CONNECTED.

MINI Operating System 9 with a new aesthetic, and an emotional & easy-touch operation that is uniquely MINI.

T-T-T-T-T-TOUCH ME.

OLED display as a central control unit with a diameter of 240 mm, fully functional and operable via touch.

MINI EXPERIENCE MODES.

Select from eight MINI Experience Modes, including personalisation options.

WITH A CLEAR CONSCIENCE.

Vescin synthetic leather for seats* and steering wheel. New knitted material in the dashboard and door area made from recycled polyester.

* The equipment shown is part of the favoured trim.

TACTILE TOGGLING.

The toggle bar is the epitome of MINI typical interior design – minimalistic yet innovative.

ALWAYS EVOLVING.

The new MINI Countryman evolves the characteristic contrast roof colours Vibrant Silver, Glazed White, Jet Black, and Chili Red.

UN-MINI-STAKABLE.

New, highly expressive paint finishes highlight the spirit of the adventurer. Alongside classic colours like Melting Silver and Nanuq White, exclusive MINI paint finishes like British Racing Green, Blazing Blue, Chili Red or Smokey Green will make choosing your finished MINI harder than ever.

CLASSIC TRIM.*

For those who value the iconic MINI look and design options. The Classic Trim brings MINI premium heritage into the present. For the very first time in a MINI, the interior features a modern knitted textile made from recycled fabric. Two-tone black and blue knitted material on the dash and doors contrasts playfully with the high-quality Vescin synthetic leather seats which are available in black/blue and sport a perforated houndstooth pattern. The three-spoke Vescin sport steering wheel is embellished with stitching and accents in Vibrant Silver. The light headliner is made from recycled materials. On the exterior, the grille surround is in black high gloss offset by the MINI logo in Vibrant Silver. You also have a spectrum of beloved and new exterior colours underlining the modernity of the new MINI Countryman generation.

FEATURES.

Seats:	Double-cloth perforated synthetic leather Vescin in grey or black with blue fabric insert.
Steering wheel:	Three-spoke sport steering wheel made in synthetic leather Vescin.
Interior finish:	Dashboard and door trim in black/blue two-tone knitted material.
Rims:	18" Asteroid Spoke Refined Silver.

Note: Description and illustration exemplary for MINI Countryman. Changes can be made at any time.

● *Trim only available for MINI Countryman E.

FAVOURED TRIM.*

If you have your eye on modern, sophisticated details, our Favoured Style premium materials highlight the intricate interior contrasts and surfaces. Our most expressive style curation features a knitted dashboard made from recycled fabric. Giving you the highest quality refinement, the sport seats in perforated Vescin are available in Vintage Brown and feature traditional accent stitching and piping. While on the outside, the Vibrant Silver accents like the optical skid plates and the side sill enforcements strengthen the offroad character of the new MINI Countryman. The dark headliner is made from recycled materials and the three-spoke sport steering wheel is made from synthetic leather Vescin.

FEATURES.

Seats:	Sport seat synthetic leather Vescin / Vintage Brown.
Steering wheel:	Three-spoke sport steering wheel in synthetic leather Vescin.
Interior finish:	Knitted fabric in petrol and brown.
Rims:	20" Windmill Spoke 2-Tone Vibrant Silver.

Note: Description and illustration exemplary for MINI Countryman. Changes can be made at any time.

● *Trim only available for MINI Countryman SE ALL4.

FROM CAR PARKS TO NATIONAL PARKS.

ELECTRIFIED GO-KART FEELING.

Packing 150 kW/204 hp, the powerful electric motor of the MINI Countryman E delivers a torque of 250 Nm and reaches 100 km/h in 8.6 seconds. The battery achieves a measured range of approximately 462 km.

POWER AND PERFORMANCE. ON AND OFF ROAD.

Whether in parking lots or in national parks – the new MINI Countryman has the necessary power, spontaneity, and responsive steering for every journey. Every turn is an adrenaline-pumping experience, from winding mountain roads to city roundabouts. If you choose a model with our ALL4 all-wheel drive, you are well prepared for even the most demanding routes.

ALL4 FOUR-WHEEL DRIVE.

The all-wheel drive MINI Countryman SE ALL4 proves its robust offroad capability with a 230 kW/313 hp* electric motor and 494 Nm on expeditions along offroad tracks. From a standing start, the vehicle sprints to 100 km/h in just 5.6 seconds and has a measured range of up to 432 kilometres.

CHARGE INTO ADVENTURE.

New setting possibilities now make the charging procedure even easier. As well as being able to define a charging window that suits your schedule, the high-voltage battery can even be brought to the optimal charging temperature to suit the prevailing weather conditions – making charging much faster.

*Incl. temporary boost power.
