# NEW OPEL ASTRA SPORTS TOURER

## Customer Notice:

Dear customer,

The enclosed Price and Equipment Guide reflects Irish pricing and specification in normal circumstances.

Please be advised however, Opel is impacted by temporary challenges in the global supply chain, including certain component shortages. Unfortunately, in the first instance, this means some customers may experience significant delays to delivery.

In the second instance, due to the present production challenges, some options for models across the Opel range are unavailable until further notice. Furthermore, Opel may temporarily offer vehicles with substituted equipment or features in place of standard equipment, or may suspend features temporarily.

These are measures taken to secure production of vehicles for customers.

As information becomes available from our manufacturer and working with our partners in the Opel Dealer Network in Ireland, Opel Ireland will endeavour to keep customers up to date regarding the order status and equipment featured on their new vehicles.

Fuel economy (l/100km)* Combined low: high	5.5: 5.5	4.5: 4.6
CO2 emissions (g/km)* Combined low: high	123: 124	118: 121
<b>WEIGHTS</b>		
Gross Vehicle Weight (KG)	1820	1920

E & OE September 2024. \*Fuel consumption figures are determined according to the WLTP test cycle. The fuel consumption you achieve under real life driving conditions and CO2 produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO2 with other vehicles tested using the same technical procedures. For more information contact your local Opel Dealer. All diesel models feature BlueInjection. Vehicles with BlueInjection technology will need regular AdBlue® top-ups also between servicing requirements. An indicator integrated into the on-board computer will warn you when you need to top up. More information see [www.opel.ie/adblue](http://www.opel.ie/adblue). In accordance with regulations R (EC) No. 715/2007 and R (EC) No. 692/2008 (in the versions respectively applicable).

### Single-speed electronic drive selector

As the motor is an all-electric single-speed drive unit, there is no need for multiple gears. Instead, the shifter lets the driver select from the following:

- Park
- Reverse
- Neutral
- Drive
- Braking (for increased regenerative braking)

### Drive mode selector

The driver can determine the driving style by selecting one of the following modes:

- **Normal:** for a balanced drive that offers a compromise between performance and energy efficiency
- **Sport:** for a dynamic drive with a responsive throttle and the highest top speed and torque
- **ECO:** for maximum range and energy efficiency. The ECO mode deactivates all unnecessary energy-consuming features and reduces the top speed, torque and overall performance

Drivetrain - Electric	
CO2 Emissions	0g/km
Maximum power	115kW (156PS)
Maximum torque	270Nm (199 lb.ft.) @ 1750rpm
Acceleration (0-100km/h)	9.2 seconds
Maximum speed	168km/h
Transmission	All-electric single-speed drive unit
Service Interval	Initial inspection at 8,000 miles/1 year (whichever comes sooner). Thereafter 16,000 miles/2 years (whichever comes sooner)
Battery Capacity	54kWh
AC on-board charger speed	11kW
WLTP	405-416km
Energy consumption (WLTP)	14.8kWh/100km
Battery warranty	8 years/160,000km/70% capacity
Charging Supply	
AC Current - Domestic 3 pin socket (2.3kW)	26h 25m
AC Current - Home wallbox/public charger (2.3kW)	8h
AC Current - Public charger (11kW)	5h 45m
DC Current - Rapid charger (100kW)	26m (20-80%)
Charging cables	
Mode 3, 3-phase 22kW cable	11kW on-board charger Standard

The Astra Electric is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Opel Dealer. EAER = Equivalent All Electric Range. \*WLTP preliminary.
